

EVMS Compliance Reviews

EVMS MOCK REVIEW

WHAT IS AN EVMS MOCK REVIEW?

An EVMS Mock Review tests an EVMS for compliance with ANSI/EIA-748. It is useful for clients seeking a validation of their EVMS, and for those who must demonstrate that their EVMS is once again compliant. It simulates a full, customer review, such as a Progress Assessment Visit, a Validation Review or a Compliance Review.

GL #	GUIDELINE DESCRIPTION
1	Single WBS
2	Single OBS
3	Integration of Processes
4	Indirect Cost Management Responsibility
5	Establishment of Control Account
6	Development of achievable integrated schedule
7	Performance Indicators to measure progress

11	$\sum WPs + \sum PPs = CA$ authorized budget
12	Identify and control LOE work
13	Establish Indirect Cost budgets
14	Identify management reserve & undistributed budget
15	Reconcile program target cost to sum of all budgets
16	Record direct costs
17	Sum costs thru the WBS w/o allocation to > 1 WBSE
18	Sum costs through the OBS
19	Record indirect Costs
20	Identify unit/equivalent unit/lot costs as needed
21	Accounting for material
22	Identify cost & sched variances at CA & higher levels
23	Analyze significant cost and schedule variances
24	Provide for analysis of indirect cost variances
25	Summarize cost/sched metrics thru WBS & OBS
26	Implement and monitor corrective actions
27	Develop EACs based on performance to date
28	Incorporate authorized changes in timely manner
29	Reconcile current & prior budgets based
30	Control retroactive changes
31	Prevent budget revisions s/o authorized changes
32	Document changes to the PMB

EVMS Mock Review Recap – Problems are identified in time to correct them prior to the real review.

EVMS MOCK REVIEW BENEFITS:

- Increases your likelihood of a favorable government review
- Significantly reduces the risk of a poor customer review
- Increases the effectiveness of your EVMS
- Gives you insights from EVM industry experts

WHY CONDUCT A MOCK REVIEW?

An EVMS Mock Review identifies problem areas in time to correct them prior to the real review. This reduces the risk of a poor customer review, with the attendant negative consequences. By following the recommendations of our industry experts, you also can increase the effectiveness of your EVMS as a management tool.

WHY HIRE SM&A FOR A MOCK REVIEW?

Contractors often don't have the time, independence or comprehensive knowledge of ANSI/EIA-748 requirements to conduct a meaningful assessment of their own EVMS. SM&A has both.

We know what reviewers will ask for (some of our people are former government reviewers). We know the best way to conduct a review and the best way to prepare for one. As an independent third party, we are able to make dispassionate assessments and recommendations.

OTHER SERVICES FROM SM&A

SM&A has been an industry leader in cost and schedule management for DoD programs for more than 20 years. We have helped over 300 companies/programs implement and maintain schedule and cost management systems.
